

## UCMR-ADA – LIVE PERFORMANCE TARIFFS

The calculation base for the percentage royalties consists of:

A. Revenues without VAT obtained by the users from the use of musical works in concerts, shows or artistic events such as:

- a) ticket sales for the show, concert or artistic event
- b) revenues obtained from advertising provided by the show, concert or artistic event
- c) revenues obtained from broadcasting of the show, concert or artistic event
- d) revenues from sponsorships received for the show, concert or artistic event
- e) budgetary allocations or any other financing for the show's tickets price

B. The users' expenditure budget for the use of musical works in shows, concerts or artistic events if there are no revenues from that particular show, concert or artistic event. The expenditure budget consists of all users' expenses such as: artist fee, accommodation, transport for the performers, promoters and partners, expenses related to the venue for the show, concert or artistic event, directing costs or any other expenses necessary for the development of the
